

**CHURCHILL COUNTY LIBRARY
TECHNOLOGY PLAN
2014-2018**

MISSION STATEMENT

The Churchill County Library will provide a quality level of library services,
consider the diverse needs of our patrons, and
respond to the rapidly changing requirements of our community.

GOALS

Goal 1: The Churchill County Library will assess, prioritize, and incorporate technological needs into the overall repurposing of the building.

- Determine all data and power locations
- Identify data backup system needs
- Determine internet and opac computer locations
- Investigate and implement new phone system
- Upgrade and maintain wireless network
- Improve, maintain, and update library website, including social media sites

Measurements:

- Data and power locations have been identified and implemented
- Data backup system is stable
- Internet and opac computers are relocated to new location
- Phone system is installed and operational
- Track wireless usage
- Track website hits and other web-based analytics

Goal 2: The Churchill County Library will provide training for staff and the public on electronic tools and resources.

- Plan and implement classes teaching both staff and the public how to access and utilize online resources

Measurements:

- Track number of people attending classes
- Increased usage of online resources

Goal 3: The Churchill County Library will stay current and relevant technologically.

- Evaluate new library technology developments; both hardware and software.
- Implement additional or new technologies as appropriate

Measurements:

- New hardware or software is installed and operational
- Track usage if service is provided
- Determine functionality if hardware based

Approved by the Churchill County Library Board of Trustees December 19, 2013
